

Job Description

Colleague Name:		Job Title:	Group Compliance Manager (Grade 1)
Reporting Manager:	Andrew McIntosh	Function:	EW Financial Services
Reporting Manager Job Title	F&I and Compliance Director	Location	Head Office

Role Overview:

Provide senior compliance oversight, assurance and data support across the EWFS business and branch network. The GCM Grade 1 role takes ownership of agreed compliance priorities, coordinates risk-based monitoring, leads higher-risk reviews, turns compliance and conduct data into clear management insight, and designs improvements to systems to maintain the robust regulatory framework currently in place.

Role Expectations:

- **Customer and Conduct:** Put the customer experience and good outcomes at the centre of decisions. Follow approved policies, controls and escalation routes always.
- **Integrity:** EWFS has zero tolerance for bribery and corruption. The role holder must act professionally, fairly and with integrity and protect the reputation built by the Group.
- **Flexibility:** This role template describes the principal accountabilities and is not exhaustive. Reasonable related duties may be assigned in line with the grade, competence and evolving needs of the business.

General Duties:

- Support the F&I and Compliance Director in maintaining an effective, risk-based compliance framework for regulated sales activity across all branches, taking functional ownership of agreed compliance priorities, coordinating activity across the Group Compliance team and assuring the quality and consistency of delivery without holding line-management responsibility.
- Manage and develop the internal, and external, compliance monitoring/audit plan- ensuring audit processes reflects regulatory risk, business change, prior findings, complaints, volumes and customer outcome indicators.
- Develop strong working relationships with Sales and Management teams to encourage knowledge of the latest Regulatory and Consumer Duty focused requirements.
- Lead higher-risk thematic branch reviews, audits and further investigations (where required)- documenting scope, evidence, conclusions and proportionate recommendations.
- Manage the consolidation and quality assurance of Sales process compliance MI- producing clear actions, trend analysis and commentary for the F&I and Compliance Director, relevant internal forums (EWMG Board) and external regulators (FCA and FOS).
- Oversee the review and compliant promotion of Group products such as Tyre and Alloy Insurance, Minor Damage Protection, Supagard, and Warranty products, ensuring product promotion aligns with relevant policies and regulations and customers are prioritised in the retail process.
- Provide senior technical guidance on Consumer Duty, consumer credit, general insurance, financial promotions, vulnerable customer considerations, approved sales processes and other applicable FCA requirements.
- Focus on achieving positive customer outcomes and adhering to Consumer Duty regulations.
- Coordinate requests for compliance data and evidence for internal assurance, external audit, lenders, product providers or regulators as directed by the F&I and Compliance Director.
- Provide technical mentoring support and constructive challenge to the Grade 2 Group Compliance Manager- helping to prioritise workloads and develop improved capability.
- Complete required regulatory and compliance training and assessments annually.
- Promote a culture in which colleagues raise concerns early, records are accurate and customer outcomes take precedence over short- or medium-term commercial pressure.
- Assist the Financial Services department with internal and external FCA branch audits, ensuring compliance with all audit requirements and follow-up actions.
- Identify, design and propose improvements to Financial Services systems, data solutions and motor-industry compliance processes, using automation and suitable controls to improve efficiency, consistency, management information and cost effectiveness, and measuring whether implemented changes deliver the intended benefits.

Experience, Skills and Behaviours:

- Substantial relevant experience in financial services compliance, quality assurance, audit or regulated motor retail.
- Strong working knowledge of FCA expectations relevant to motor finance and general insurance, including Consumer Duty and customer-outcome monitoring. Additional knowledge will be supported by in-role training and mentoring.
- Advanced analytical capability: able to reconcile data, define measures, detect patterns and explain limitations without overstating conclusions.
- Risk based review completion- documenting defensible findings and assessing the effectiveness of remediation.
- Sound judgement and professionalism, with the ability to challenge senior branch and Group managers constructively and proportionately.
- Excellent written communication, including concise reports, policies, procedures and executive-level commentary.
- Strong Excel and reporting-tool capability; familiarity with dashboarding or data visualisation is desirable.
- Relevant compliance, audit or financial services qualification is desirable; all mandatory EWFS regulatory learning must be maintained.

Being Brilliant at the BASICS:

As part of our team, we focus on **Behaviour, Attitude, Support, Ideas, Celebrate, and Smile** (BASICS). These values are not just words; they shape our workplace culture. We expect everyone to embrace the BASICS in their daily roles. Positive **behaviour** and a constructive **attitude** contribute to a collaborative/safe working environment. **Support** colleagues, sharing innovative **ideas**, **celebrate** achievements, and facing challenges with a **smile** are not just suggested but vital for our collective success. By sticking to the BASICS, each team member plays a crucial role in creating a productive and enjoyable workplace.
